01 — BIOGRAPHY

The sound people kept asking for.

Asuerinrinme Paul Jerry — known professionally as **Parel** — is a music producer, beatmaker and mix & mastering engineer based in Surulere, Lagos.

He started producing in 2010, when it became clear that people didn't just like his sound — they wanted to work with it. Since then, Parel has built a catalogue across street-pop and Afrobeats, working with notable artists including **9ice**, **Portable** and **Semion**.

From the first beat to the final master, he handles the full record — one ear across the whole process, and a finished song ready for release.
